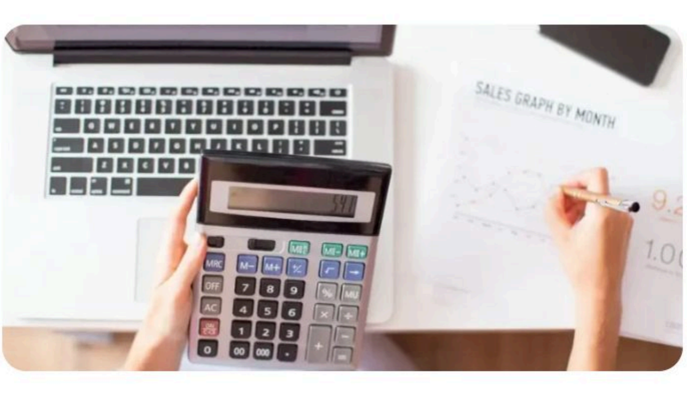
Payroll Outsourcing

Payroll Outsourcing

What is payroll management service?



Payroll management service (Payroll Outsourcing) is a form where a business hires an external professional unit to perform all operations related to paying wages, taxes and insurance for employees. Instead of operating a complex internal human resources machinery, businesses should use payroll calculation services to ensure accuracy, timeliness and absolute compliance with legal regulations.

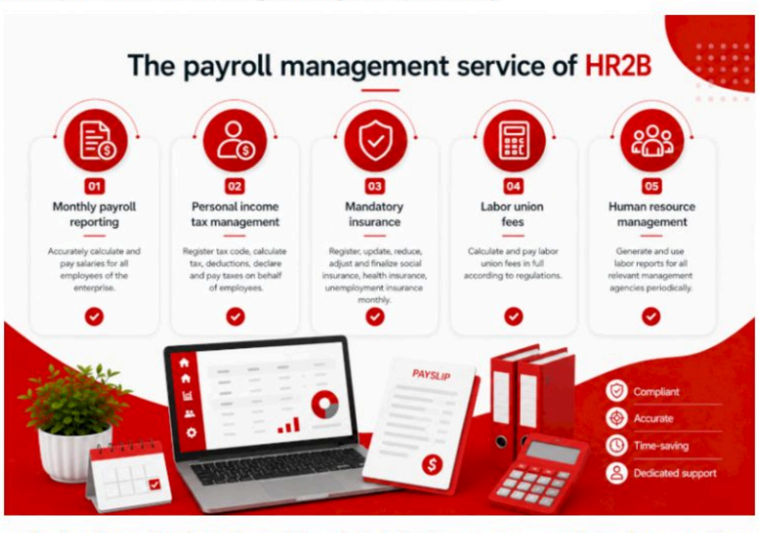
How will HR2B's payroll management service support customers?

When using payroll management service, HR2B undertakes all professional work from calculation to periodic reporting:

- **Monthly payroll reporting:** Calculate and create accurate payroll tables for all employees of the business.
- **Personal income tax (PIT) management:** Register PIT tax code, increase/decrease dependents for employees. Deduct, declare and pay taxes monthly/quarterly; while conducting annual or quarterly tax settlement according to regulations.
- **Compulsory insurance:** Perform procedures related to Social Insurance (BHXH), Health Insurance (BHYT) and Unemployment Insurance (BHTN) monthly: new registration, report reductions during BHXH contribution process, implement BHXH regimes (illness, maternity, etc.), close BHXH ledger.
- **Trade union fund:** Calculate and pay union fund and membership fees in full according to regulations.
- **Labor management:** Perform labor use reports for all labor management agencies periodically



The payroll management service of HR2B

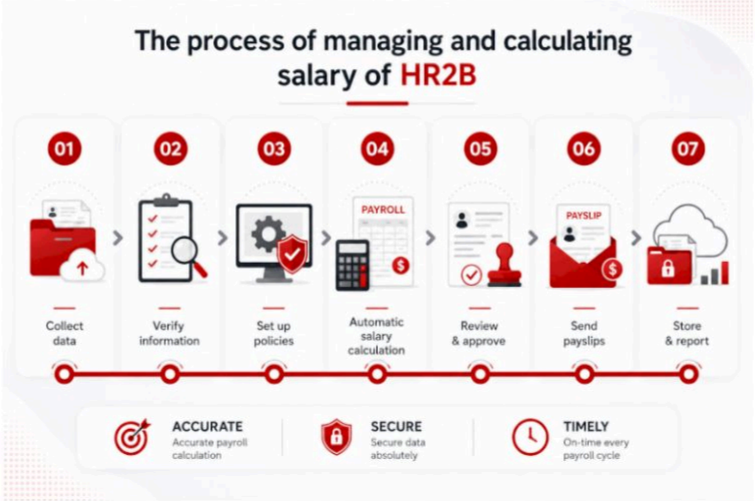
05 Human resource management
Generate and use labor reports for all relevant management agencies periodically.
PAYSLIP
Compliant
Accurate
Time-saving
Dedicated support

HR2B provides professional payroll outsourcing solutions to help businesses manage salaries, taxes, and insurance efficiently.

HR2B's payroll management and calculation process

The payroll service deployment process with standard security at HR2B includes the following steps:

- **Step 1:** Data collection and standardization: HR2B collects attendance data and information on personnel changes occurring in the period to standardize information, thereby ensuring consistency and accuracy for subsequent calculations.
- **Step 2:** Data verification and confirmation: Confirm payroll data from the source provider (customer) and control worksheets according to internal procedures to minimize confusion and errors.
- **Step 3:** Establish formulas and policies: Build a separate salary structure for each customer according to requirements but still ensure compliance with insurance and personal income tax regulations set synchronously in the system, helping payroll be calculated automatically and consistently for all personnel.
- **Step 4:** Create payroll table: Based on the established formula, HR2B calculates total income, deductions and net salary for employees. Special cases such as resignation or mid-period salary changes will be carefully reviewed.
- **Step 5:** Review and approval: The payroll table is reviewed one last time to ensure income structure and total payroll fund are consistent with approved budget. This process helps confirm financial validity and limits the risk of disputes after payment.
- **Step 6:** Send payroll reports to customers and pay slips to employees: Pay slips are sent separately through secure system to make income and deductions transparent to workers. HR2B supports receiving and answering employee inquiries before completing the payroll period.
- **Step 7:** File and report storage: At the end of the payroll period, all payroll tables and tax and insurance documents are stored in the system for audit and settlement purposes, while helping businesses monitor payroll fund changes and build sustainable financial plans.



The process of managing and calculating salary of HR2B
01 Collect data
02 Verify information
03 Set up policies

HR2B's payroll outsourcing service pricing

HR2B's payroll service fee is calculated based on the number of employees in your business, so you only pay for what you actually use. The tables below show reference prices for businesses with Vietnamese employees only and for businesses that also employ foreign workers. Contact HR2B to receive a detailed quote tailored to your company's payroll structure.

For businesses with Vietnamese employees only

Number of employees	Reference price	
1 – 5 employees	1,500,000 VND / month	Get quote →
6 – 10 employees	2,000,000 VND / month	Get quote →
11 – 15 employees	2,500,000 VND / month	Get quote →
16 – 20 employees	3,000,000 VND / month	Get quote →
21 – 25 employees	3,500,000 VND / month	Get quote →
Over 25 employees	+120,000 VND / additional employee / month	Get quote →

For businesses with foreign employees

Service	Reference price
Payroll for foreign employees	Same pricing as businesses with Vietnamese employees only
	+200,000 VND / foreign employee / month
Social insurance procedures for foreign employees	Unit code registration: **500,000 VND**
	Reporting increase / decrease of foreign employees: **1,000,000 VND / time**

* Prices **exclude VAT** · Minimum contract: **3 months** · Reference prices, applicable from 2026

What's included in the fee

- Monthly payroll calculation and payroll reporting
- Personal income tax (PIT) registration, declaration and payment
- Social, health and unemployment insurance procedures
- Trade union fund calculation and payment
- Periodic labor use reports
- Secure payslips sent to every employee

Factors that affect your price

- **Headcount** – the main basis for the monthly fee
- **Foreign employees** – additional fee per person and insurance procedures
- **Payroll complexity** – shifts, allowances, bonuses, multiple branches
- **Additional requests** beyond the standard service scope

500,000+	99.95%	99.98%	ISO 27001
